

Instructions for Completing Tote bag

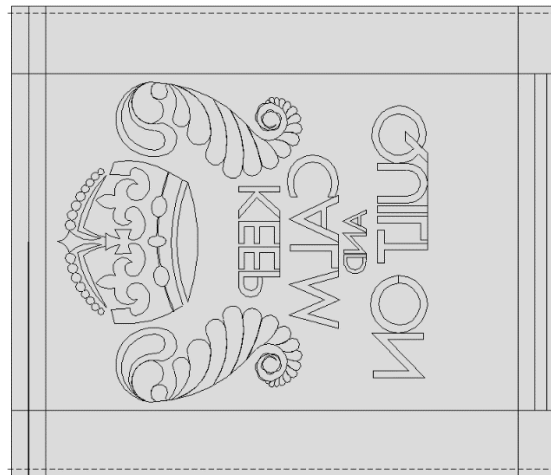

Cut out handles and tote. Cut right up next to stitching line but try not to cut the stitching line. For handles, cut out another piece of fabric the same size. Stitch down both sides and across one end.

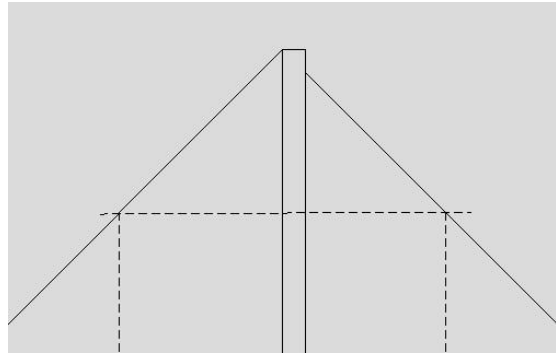

Clip corners and turn.

Fold tote in half, right sides together. Stitch down the sides using a $\frac{1}{4}$ " seam allowance.

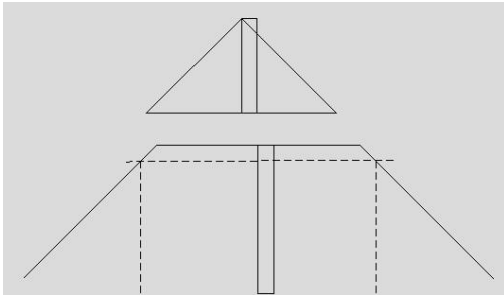

We need to stitch across the side and bottom to create gussets.

Fold sides on gusset stitch lines then sew from bottom gusset stitch line to the other.

Cut away triangle shape.

Do this for both sides.

Turn bag right side out. Double fold down the top edges, there are stitched lines to help you.

Then Top stitch.

Position handles and stitch into place.
