

INTRODUCING GEORGETTE'S LEGACY: CRIB QUILT SERIES

These whole cloth crib quilts are done in 3 passes. They are configured for a finished size of 40"x50". Choose from 2 different outside designs, and then choose the center of your choice, or choose a center background fill and choose your own design to put in the middle.

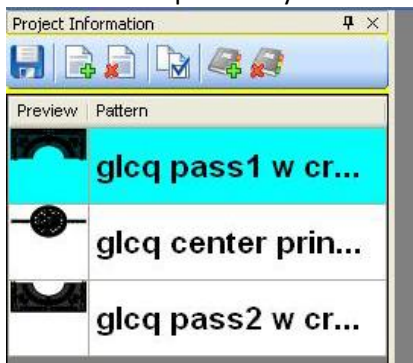

Instructions:

Fabric: I have used flannel, flannel backed satin, cotton, and minke all successfully. To make the quilt in the default size you will need 1 5/8 yards of backing and front fabric.

Load the backing fabric onto the longarm. Load it such that you are pinning the selvedge edges to the take up rollers.

Add the three patterns you need to your project.

Turn on "View Crosshairs"

Move Statler head to the upperleft corner of the fabric such that when the pattern sews out the top and left edge will be on the fabric.

Highlight "glcq pass1 w crown" and click repeat pattern. Change reference point to upperleftcorner and click OK

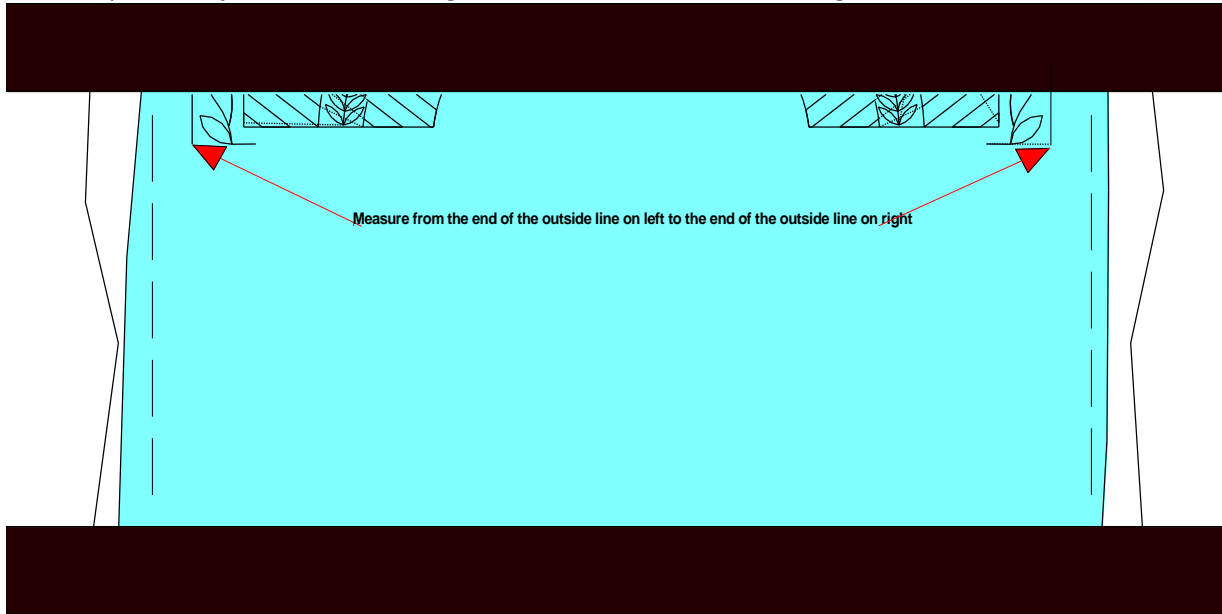

Move the head and hopper foot to the lower right corner of the fabric.

Verify on the screen that there is room to stitch the pattern.

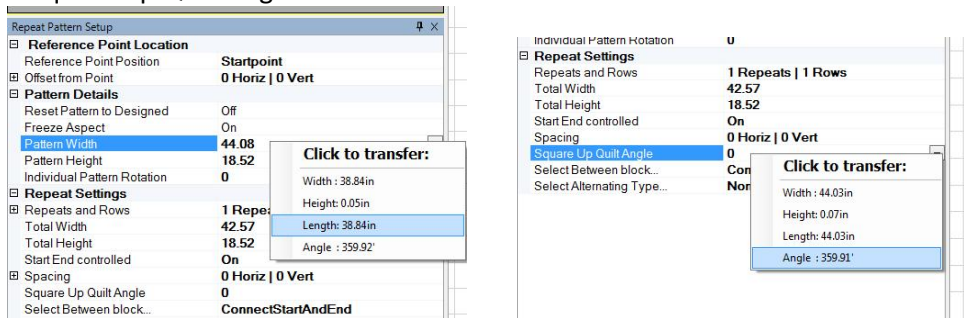

Save the project. Now quilt out pass 1.

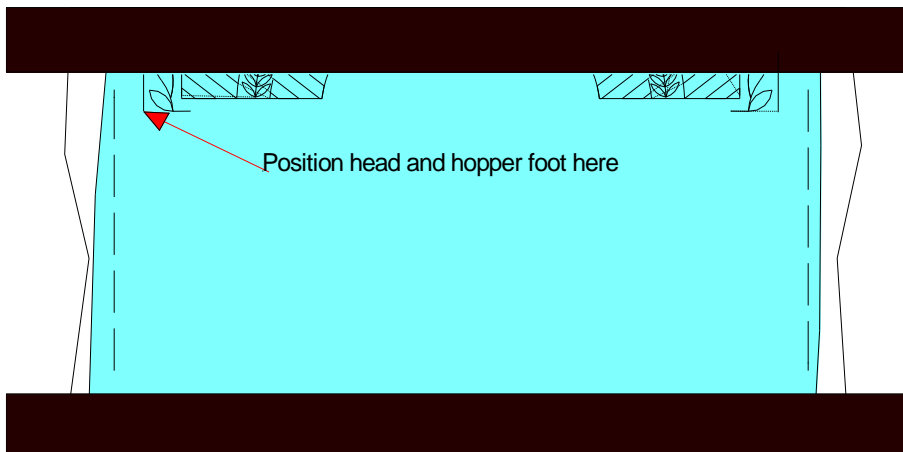

Roll the quilt until just the bottom edge of the first row is in the sewing area.

Click measure, measure from end of the outside line on the left to the end of the outside line on the right. Highlight "glcq pass2 w crown" pattern, click repeat pattern. Position head at end of outside line on left. Change the pattern width (freeze on) to what you measured or transfer in the length and then transfer the angle into Square Up Quilt Angle.

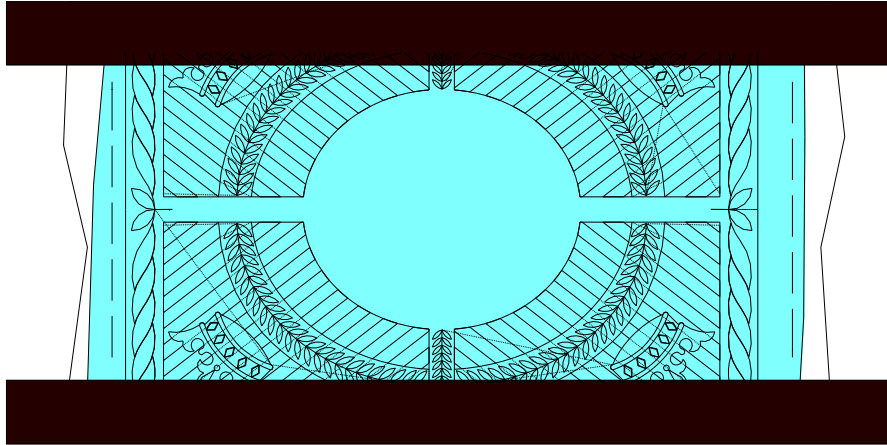

Position head at end of outside line on left

Click OK
Save the project, quilt.

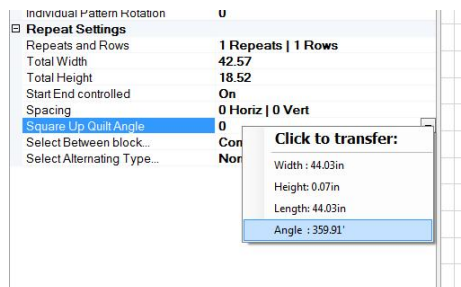

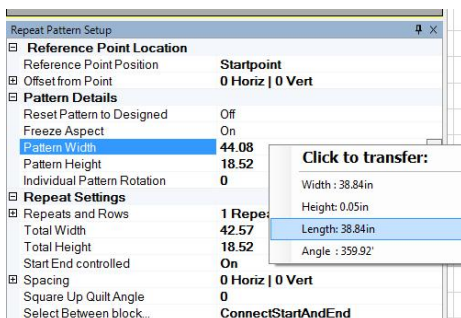

Roll the quilt back so that the blank center area is accessible.

Click measure and measure between these 2 lines.

Highlight "glcq center princess 1", click repeat pattern. Transfer the length into the pattern width (freeze on), and the angle into the Square up quilt angle.

Place head and hopper foot as shown, and click OK, save, and quilt.

Congratulations, you have finished all the quilting. Take off the machine, trim and bind.

Here are some other combinations:
