

Club Notes:

December 2010

The Busy Season Here!

You know how each of you has been completely covered up with “I gotta have this for Christmas” quilts? Well, that has had an immediate and overwhelming affect on Sweet Dreams Quilt Studio, too! The result of the Christmas rush quilts is that there are 193 patterns in this batch. Since that’s more than double the normal number of patterns, I thought it was noteworthy. The number of patterns has been steadily increasing as more and more quilters join the Crown Jewels Club, but really....this is almost overwhelming.

So, do yourselves a favor and give your customers a deadline so you don’t find yourselves still quilting for your customers on Christmas eve!

I actually quilted a little wall hanging for myself (hostess gift for my daughter’s future mother-in-law who doesn’t do any sewing at all!). It kind of reminded me why I bought my first longarm machine!

Warm Wishes,
Kim and Janet

The Emerald Princess contains 193 patterns, including 421 panos, a retail value of \$2135.00

Panos

Pattern: arrowhead pano 001
Archive: Emerald Princess

Pattern: asian pano 001
Archive: Emerald Princess

Archive: Emerald Princess

Pattern: turkish pano sq
Archive: Emerald Princess

Pattern: wine 101
Archive: Emerald Princess

Pattern: wolf in trees 002
Archive: Emerald Princess

Pattern: zachary pano
Archive: Emerald Princess

It took us awhile to get it done, but you can now keep up with new patterns, Crown Jewels Club release dates, photos from our customers.... We'll be using it to make announcements to our longarm quilting customers and share ideas and kudos among us all!

Use this piece in the Georgette's Legacy Quilt whole cloth quilt to make a lap quilt for an adult.

Quilt this pattern out to create an easy gift or just for yourself. Although it was designed for a customer who wanted it for Christmas gifts, it isn't necessarily a Christmas table runner. I plan to quilt it out on Michael Miller's Fairy Frost fabrics and have it as a winter table runner.

Christmas Stockings

New Format

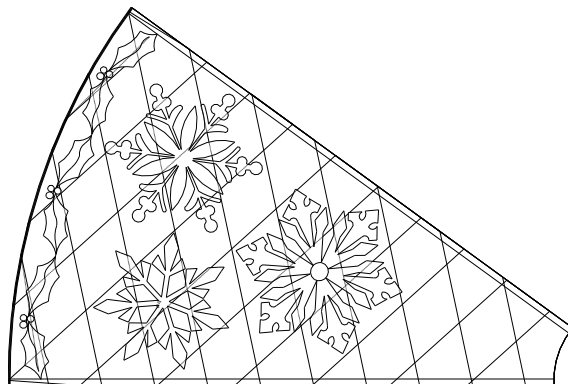

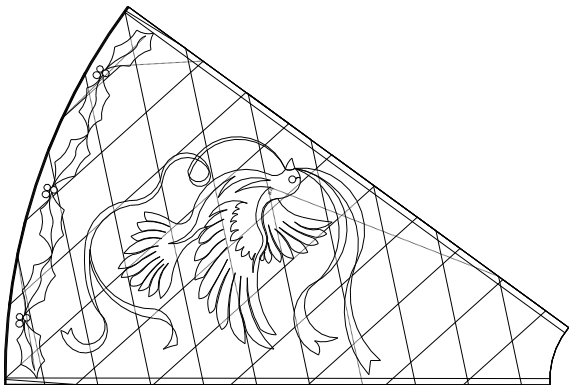

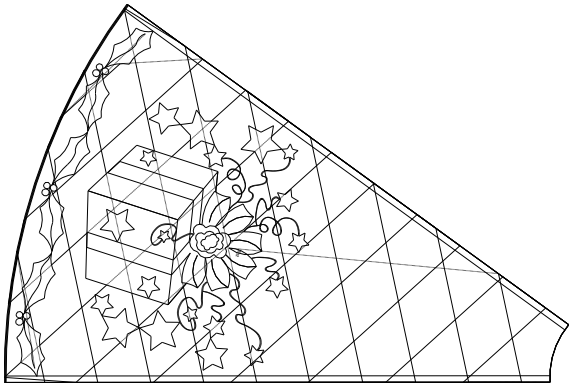

Christmas Stocking Mix and Match:
Choose the outline style you want and
fill it in with the design you want!

Christmas Tree Skirts have been re-designed so that you can make them bigger....and also so that if you have a smaller throat on your longarm, you can still make them. (need to make 10 panels for 1 skirt)

Christmas 2010 Pattern Set

Changes

Sweet Dreams Quilt Studio has made some pattern distribution changes lately, which only affect Statler Stitcher users. Beginning October 1st, no Pattern Bundles or Crown Jewels Club archives will be available for automatic download. Instead, those purchases will be emailed to you just as soon as we can get to them. The auto encryption system "iStatler" (developed by, owned by, and maintained by Gammill) was experiencing volume difficulties. Their solution was so costly that it was a convenience that we could no longer provide for Bundles and Archives without passing that cost along to our customers and we simply were not willing to do that. So regular pattern orders will continue to be available for auto download....you'll just have to wait a bit for the rest.

We do encourage all of you (not just Statler users) to join our Facebook group and watch for announcements about the Crown Jewels Club. You can also upload and display your quilting photos! Even photos of your quilt studios! We love to see it all!

Email Spam Tip:

If you are using an email program such as Outlook Express, Microsoft Outlook, etc. to manage your email, you already know about the "junk" folder that shows up listed under your Inbox. But did you know that your Internet Service Provider also has another spam/junk folder which collects emails before they ever reach your Outlook Express or MS Outlook? How do you find it? Go to the web page of your ISP (for example, my personal email account is with CenturyLink) So, I go to www.centurylink.com, and click on the "web mail" link. I have to enter my user name and password, but then I can see my emails even if I'm not using my own computer. I can also see that ISP provided spam box. Take a look through that spam/junk box and see if it has any of your missing emails in it. If it does, you should be able to mark those emails as "not junk". That will help future emails from those senders actually make it to your computer. I can do the same thing for my AOL email account....just go to the www.aol.com, log into web mail, and check out the junk/spam folders. It will surprise you what's in there!
