**Greetings Quilters!** When I texted this photo to Kim this week, she said that she thought I should make the photo the main element on the Club Notes Newsletter for November, with the caption of: **"Multi-tasking beyond my capabilities, once again!** Got a handle on the customer service, but didn't quite manage to dress myself in matching clothes! ☺
Enjoy the patterns!

**The Garnet November 2021 Archive** contains 148 patterns, including 64 panos, a retail value of $1800.00.

This version of the pattern set contains all of the elements, connected with no-sew lines (jump stitches). Kim made these so the person who wanted patterns for this quilt could divide out those parts based on thread color options.

# Martha Settles Patterns

Kim created these patterns for me to quilt a New York Beauty Quilt. I sent a good photo of the blocks to her and told her that I'd like the Martha Settles motif modified for my NYB.
Patterns use no-sew lines (jump stitches) to connect the outer, middle, and inner segments. I ended up dividing out these elements (in my Statler software) for some of the blocks so I could better fit her piecing. My customer loved these patterns on her quilt!

# *The Name Panos...sigh!*

—I do my level best to talk my quilting customers OUT of stitching name panos on their quilts.  Why?  Because I think they almost always detract from the quilt itself AND you can't read the names from the backside of the quilt.  My personal quilting philosophy is to "do no harm" which means not quilting elaborate designs on a quilt just because I have a computer guided longarm which allows me to do so.  Just because you CAN does not mean you SHOULD.

—Regardless, name panos are popular, especially around Christmas and Graduation seasons.  Consequently, this archive contains more name panos than I would like.  Most of them you will never have a use for, so just cull them out and forget about them.  That's what I do...they don't make it onto my Statlers.  If you need one, you can always ask me to send it to you again.

—*Almost every single name pano started out life as a "normal" pattern, to which we were requested to add a name.  The original "normal" pattern is probably NOT included in the current archive, as it was created at some time in the past.  That's one reason why CJC members get a 20% discount on all online pattern purchases.*

—From time to time we poll our Crown Jewels Club members and ask them if they'd like us to delete all those name panos from the arcption.  As Crown Jewels Club members, you pay the $50.00 monthly fee and get EVERYTHING Kim draws….including the name panos, and apparently, you want them all.hive so you don't have to cull them out.  Very few people (much to my surprise) voted for that

# Statler Owners Upgrading to Creative Studio 7.3 and 7.5 *(please read)*

Plan your software upgrade!  If you have quilts to run and cannot afford any downtime, wait until your quilt load eases up before uploading.

Some people have had better luck downloading the software to a usb stick and upgrading their Statler and their Stand Alone Mode computers from  the usb stick, rather than opening the Creative Studio software and then letting it upgrade from that point.

If you upgrade to Creative Studio 7.3 and your controller and/or red key numbers are no longer registered, you'll need to register them again.  If the system won't let you register them, you'll need to reach out to Gammill/Statler Technical Support.  As much as we'd love to help you, this is not something we can take care of for you.  :(

# ProStitcher Owners *(please read)*

DO NOT use the ProStitcher Beta software!  Make sure you are running the vs ending 5706.  Life will be much easier for you if you're running the current software.
