Moonstone

JULY
2023

Greetings Quilters!

The Crown Jewels Club has been running since February 2009! Through the June 2024 patterns, that's 22,962 patterns. For those of you who have been Crown Jewels Club members since the very beginning, that's quite an impressive pattern collection (and we KNOW you buy patterns from other designers, too). We are collectors, aren't we? I personally have a mid to high level thread addiction in addition to my pattern collection!

This is the final installment of the Crown Jewels Club. Kim will continue to draw patterns for the Club Diamond Regular and Club Diamond Lite pattern clubs, which are 13 E2E patterns each. As Crown Jewels Club members, you've been receiving the Club Diamond patterns (from both of the Club Diamond Clubs). If you want to receive the Club Diamond patterns released in July and forward, you'll need to sign up for the club. Here's a link for your convenience! <https://sweetdreamsqiltstudio.com/club-diamond.php>

Kim isn't exactly retiring, but she will be selective in what she accepts with regard to drawing requests. She's toying with the idea (for all of you who have customers who want names and/or words in patterns) of allowing customers to select an existing pattern, in which she would insert the name or word one time. She may also restrict the font selection.

I am retiring from Sweet Dreams at the end of June (well....I'll get the July CJC patterns sent out and then I'm retired). I have been privileged to provide customer service to you all these years and am sure I will miss hearing the voices of my "frequent flyer" callers. Customer Service in the future will be handled by Kim, Steve, or Kadee, although, I'll still be in the background helping them help you if they get stumped! Customer Service will remain a priority for Sweet Dreams! You can reach them via phone (573-446-0421) or via email at customerservice@sweetdreamsqiltstudio.com.

My immediate plans are to take my grandson fishing and make homemade pizzas with my granddaughter, go to more quilt retreats, and just maybe quilt one of my own quilts!

Enjoy the patterns!

Janet

The Name Panos...sigh!

—I do my level best to talk my quilting customers OUT of stitching name panos on their quilts. Why? Because I think they almost always detract from the quilt itself AND you can't read the names from the back-side of the quilt. My personal quilting philosophy is to "do no harm" which means not quilting elaborate designs on a quilt just because I have a computer guided longarm which allows me to do so. Just because you CAN does not mean you SHOULD.

—Regardless, name panos are popular, especially around Christmas and Graduation seasons. Consequently, this archive contains more name panos than I would like. Most of them you will never have a use for, so just cull them out and forget about them. That's what I do...they don't make it onto my Statlers. If you need one, you can always ask me to send it to you again.

—Almost every single name pano started out life as a "normal" pattern, to which we were requested to add a name. The original "normal" pattern is probably NOT included in the current archive, as it was created at some time in the past. That's one reason why CJC members get a 20% discount on all online pattern purchases.

—From time to time we poll our Crown Jewels Club members and ask them if they'd like us to delete all those name panos from the archive. As Crown Jewels Club members, you pay the \$50.00 monthly fee and get EVERYTHING Kim draws...including the name panos, and apparently, you want them all. Very few people (much to my surprise) voted to have them culled out prior to release.

Statler Owners Upgrading to Creative Studio 7.3 and 7.5 (please read)

Plan your software upgrade! If you have quilts to run and cannot afford any downtime, wait until your quilt load eases up before uploading.

Some people have had better luck downloading the software to a usb stick and upgrading their Statler and their Stand Alone Mode computers from the usb stick, rather than opening the Creative Studio software and then letting it upgrade from that point.

Statler Owners: If you're using CS 7.5.4 are your encrypted patterns suddenly have a dark gold background (instead of light yellow), LOG OUT of your Creative Studio Cloud Database. Reboot your Creative Studio software and then log back into your CS Cloud Database. Your patterns should then be light yellow (which means that they will stitch). If you still have problems, sync your patterns to your Gammill Pattern Cloud Account.

If you upgrade to Statler's Ascend, Gammill will make all of your patterns (in your Gammill Pattern Cloud Account) work with your new system, but you will need to contact SDQS with your new Statler Gold Key number.
