

Club Notes: **Q** Peridot **APRIL** **2023**

Greetings Quilters!

Miss Rosie's Quilt Company has a delightful quilt pattern called "Cracked Pots". This month's patterns include a custom pattern set for this quilt.

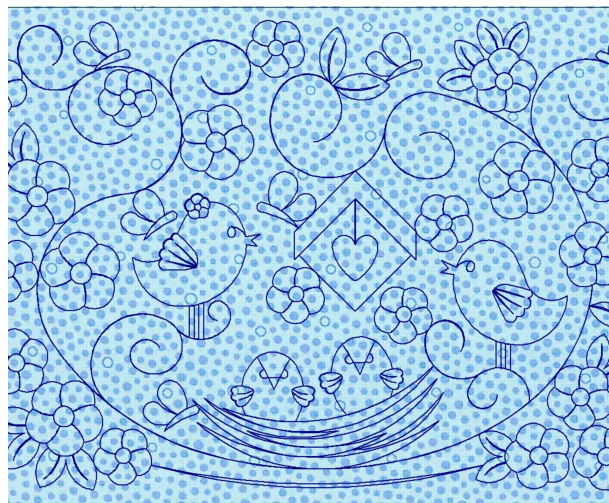

The April gift pattern (the one customers get when they make a purchase online) is the May Applique placemat, which you can quilt out and bind or quilt and let the pattern do the self-binding. There will be a new placemat each month.

I strongly recommend that you pre-wash your fabrics, as placemats tend to come in contact with food, so you'll want to be able to wash them. I also recommend that you use polyester batting for the same reason

(you don't want them to shrink, either).

This month's placemat has no raw edge applique stitching, so just choose your fabric and your thread color and you're good to go!

Enjoy the patterns!
Janet & Kim

**The Peridot March 2023 Archive contains 101 patterns,
including 43 e2e patterns, a retail value of \$1225.00.**

Patterns for Bonnie Hunter's Chilhowie Quilt

I really like the three different “shingle” options for the house rooves.

TP Butterfly Feather Patterns

Kim was asked to create feather patterns for some of the background in the Tula Pink Butterfly Quilt. The feathers at the top of the quilt are designed to complement the antennae. There will need to be some micro-stippling around all of the feathers or at least some other type of background fill used to finish out those areas where the feathers don't reach. If you have one of these quilts in your studio and use this set of feathers, send us photos of your quilt so we can see how your creativity filled those areas!

Raw Edge Applique Seabee Patterns

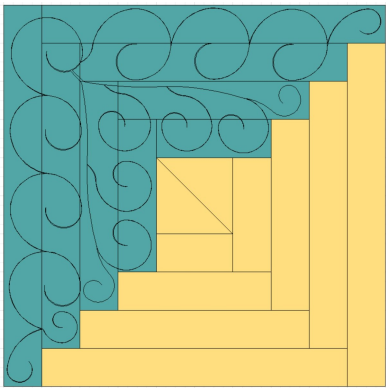

Back in September 2022, Kim made a Raw Edge Applique pattern for me to use in the center of a quilt I made for the widow of a man who had been a Seabee. (She cried when I gave the quilt to her). That pattern used jump stitches to connect the various parts.

In March, we had a customer whose computer-guided system did not have enough ram memory to handle this pattern and she requested that Kim break down the pattern into smaller parts. These patterns still use jump stitches to connect the various parts within each pattern.

The Name Panos...sigh!

—I do my level best to talk my quilting customers OUT of stitching name panos on their quilts. Why? Because I think they almost always detract from the quilt itself AND you can't read the names from the back-side of the quilt. My personal quilting philosophy is to "do no harm" which means not quilting elaborate designs on a quilt just because I have a computer guided longarm which allows me to do so. Just because you CAN does not mean you SHOULD.

—Regardless, name panos are popular, especially around Christmas and Graduation seasons. Consequently, this archive contains more name panos than I would like. Most of them you will never have a use for, so just cull them out and forget about them. That's what I do...they don't make it onto my Statlers. If you need one, you can always ask me to send it to you again.

—Almost every single name pano started out life as a "normal" pattern, to which we were requested to add a name. The original "normal" pattern is probably NOT included in the current archive, as it was created at some time in the past. That's one reason why CJC members get a 20% discount on all online pattern purchases.

—From time to time we poll our Crown Jewels Club members and ask them if they'd like us to delete all those name panos from the archive. As Crown Jewels Club members, you pay the \$50.00 monthly fee and get EVERYTHING Kim draws...including the name panos, and apparently, you want them all. Very few people (much to my surprise) voted to have them culled out prior to release.

Statler Owners Upgrading to Creative Studio 7.3 and 7.5 (please read)

Plan your software upgrade! If you have quilts to run and cannot afford any downtime, wait until your quilt load eases up before uploading.

Some people have had better luck downloading the software to a usb stick and upgrading their Statler and their Stand Alone Mode computers from the usb stick, rather than opening the Creative Studio software and then letting it upgrade from that point.

Statler Owners: If you're using CS 7.5.4 are your encrypted patterns suddenly have a dark gold background (instead of light yellow), LOG OUT of your Creative Studio Cloud Database. Reboot your Creative Studio software and then log back into your CS Cloud Database. Your patterns should then be light yellow (which means that they will stitch). If you still have problems, sync your patterns to your Gammill Pattern Cloud Account.

If you upgrade to Statler's Ascend, Gammill will make all of your patterns (in your Gammill Pattern Cloud Account) work with your new system, but you will need to contact SDQS with your new Statler Gold Key number.
