

# Club Notes: **Q** Peridot OCTOBER 2022

Greetings Quilting!

Last week we had high temperatures in the upper 90's and this week we have overnight lows in the lower 40's. If the temps don't warm back up, my last 20 pounds of tomatoes will never ripen!

This month there are several pattern sets for new quilts out from Sew Kind of Wonderful, Jaybird Designs, and Elizabeth Hartman. There are also some cute fall theme e2e patterns.

The October gift pattern (the one customers get when they make a purchase online) is the November Raw Edge Applique placemat, which you can quilt out and bind or quilt and let the pattern do the self-binding. There will be a new placemat each month. I strongly recommend that you pre-wash your fabrics, as placemats tend to come into contact with

food, so you'll want to be able to wash them. I also recommend that you use polyester batting for the same reason (you don't want them to shrink, either). There's a stitch map included in this newsletter so you know which fabrics to lay down first.

I'm starting to get some Christmas gift quilts coming into my quilt studio which is nice. Let us know if you need special patterns designed!

Enjoy the patterns!

Janet & Kim

# ***The Name Panos...sigh!***

—I do my level best to talk my quilting customers OUT of stitching name panos on their quilts. Why? Because I think they almost always detract from the quilt itself AND you can't read the names from the back-side of the quilt. My personal quilting philosophy is to "do no harm" which means not quilting elaborate designs on a quilt just because I have a computer guided longarm which allows me to do so. Just because you CAN does not mean you SHOULD.

—Regardless, name panos are popular, especially around Christmas and Graduation seasons. Consequently, this archive contains more name panos than I would like. Most of them you will never have a use for, so just cull them out and forget about them. That's what I do...they don't make it onto my Statlers. If you need one, you can always ask me to send it to you again.

***—Almost every single name pano started out life as a "normal" pattern, to which we were requested to add a name. The original "normal" pattern is probably NOT included in the current archive, as it was created at some time in the past. That's one reason why CJC members get a 20% discount on all online pattern purchases.***

—From time to time we poll our Crown Jewels Club members and ask them if they'd like us to delete all those name panos from the archive. As Crown Jewels Club members, you pay the \$50.00 monthly fee and get EVERYTHING Kim draws....including the name panos, and apparently, you want them all. Very few people (much to my surprise) voted to have them culled out prior to release.

## **Statler Owners Upgrading to Creative Studio 7.3 and 7.5 (please read)**

Plan your software upgrade! If you have quilts to run and cannot afford any downtime, wait until your quilt load eases up before uploading.

Some people have had better luck downloading the software to a usb stick and upgrading their Statler and their Stand Alone Mode computers from the usb stick, rather than opening the Creative Studio software and then letting it upgrade from that point.

If you upgrade to Creative Studio 7.3 and your controller and/or red key numbers are no longer registered, you'll need to register them again. If the system won't let you register them, you'll need to reach out to Gammill/Statler Technical Support. As much as we'd love to help you, this is not something we can take care of for you. :(

## **ProStitcher Owners (please read)**

DO NOT use the ProStitcher Beta software! Make sure you are running the vs ending 5706. Life will be much easier for you if you're running the current software.
